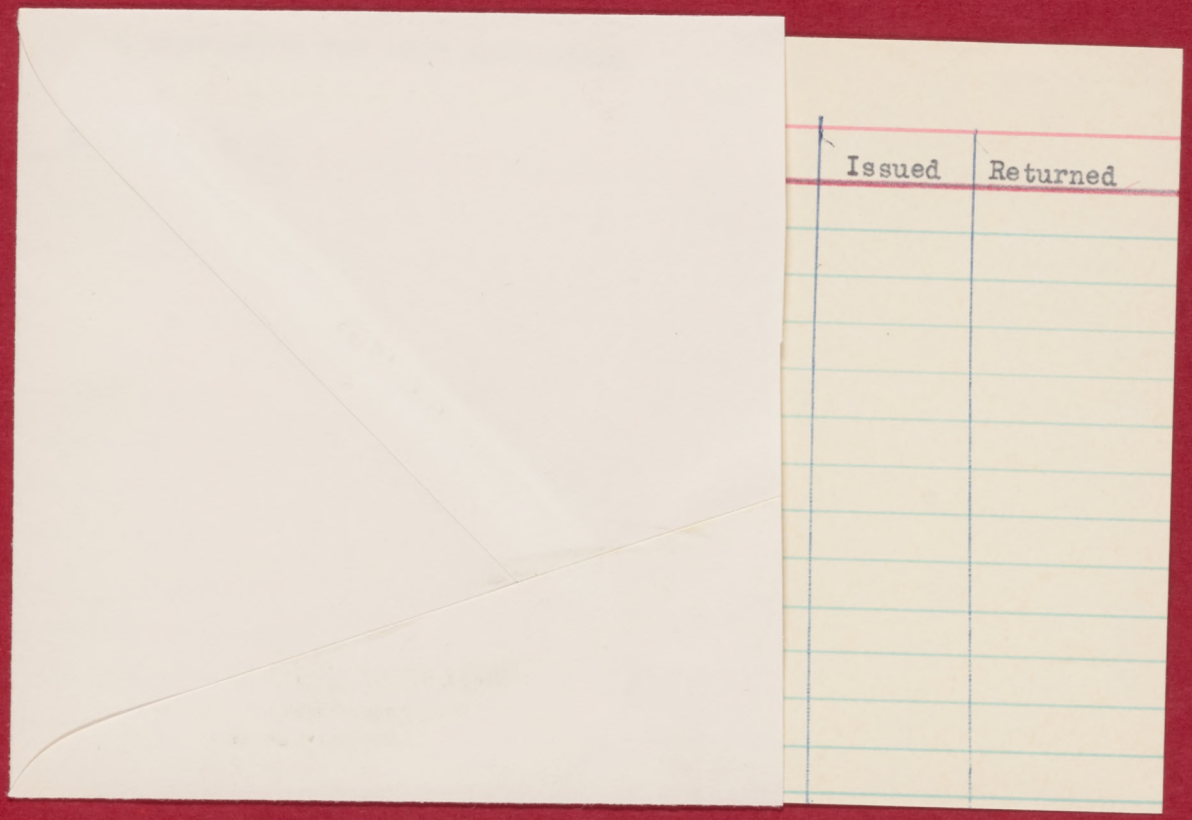
SAN DIEGO CO.

FIRE STATISTICS

FOR

1952 ACTIVITIES

DEWITT NELSON
STATE FORESTER



Issued	Returned

FOREWORD

The forest fire statistics tabulated herein are based on qualified land areas of the State that are under the fire protection responsibility of the California State Division of Forestry, either by Legislative direction or by agreement with counties.

Land areas are divided into three zones called Zones I, II, and III.

Zone I is land principally privately owned and of primary timber and watershed value. Zone I is also termed Clarke-McNary land, and because of the national interest in timber and watersheds, the State of California receives reimbursement from the federal government on a percentage of State expenditures for protection of these lands.

Zone II was established by legislative action in 1945 as the fire responsibility of the State of California, due both to its primary and secondary timber and watersheds as well as its range and erosion resistant values.

Zone II contains those lands situated usually between the Zone I Clarke-McNary lands and the valley floor; these lands are primarily privately owned and have no federal interest.

Zone III is principally valley land having no State or federal interest in timber, watershed, range or erosion. Fire protection on these lands is the responsibility of local agencies.

Zone III becomes involved in these statistics only because the California Division of Forestry contracts with those counties for Zone III protection where the State is already protecting mountain areas and is established in the fire protection business. Through these contracts the State does the entire protection job, and is reimbursed by the county concerned for the effort expended on non-State interest lands.

Therefore, the tabulations shown here are derived from reportable action on fires occurring on lands situated in the above three zones.

Not reported here are fires on lands protected by other agencies, such as the U. S. Forest Service, counties having their own forest protection facilities, fire districts and city fire departments, except where specifically noted. Fire Suppression action by State crews on these lands is shown. Action by these agencies on State responsibility lands is also shown.
